Preface

The following conventions are used in this document:

Bold	Used for information that is typed, pressed, or selected in executables and instructions. For example, select connect to host .
<i>Italics</i>	Used for file names, directories, scripts, commands, user IDs, document names, and Bibliography references; and any unusual computerese the first time it is used in text.
<u>Underline</u>	Used for emphasis.
Arrows <>	Used to identify keys on the keyboard. For example <Return>.
“Quotation Marks”	Used to identify informal, computer-generated queries and reports, or coined names; and to clarify a term when it appears for the first time. For example “Data-Generation Report.”
Courier Font	Used to denote anything as it appears on the screen or command lines. For example <code>tar xvf dev/rmt/3mm</code> .
Capitalization	Used to identify keys, screen icons, screen buttons, field, and menu names.

1. System Administrator's Manual (SAM) for cbif_IRCC

This document is the System Administrator's Manual for the Character-Based Interface Internet Relay Chat Client (cbif_IRCC) segment for the Defense Information Infrastructure (DII) for HP-based machines.

1.1 Scope

1.1.1 Identification

This section contains identification information for the cbif_IRCC segment:

Segment Name:	cbif_IRCC. This software is released by the Free Software Foundation.
Version Number:	The Common Operating Environment (COE) version number is Version 1.0.0.0 (V1.0.0.0). The product version number is V2.8.21.
Platform:	HP platforms with HP-UX 10.x.

1.2 System Overview

This software provides real-time teleconferencing ability between multiple users. The software responds to a telnet session from a user with the cbif profile.

2. Referenced Documents

The following documents are referenced in this SAM:

- C *Segment Installation Procedures - Character-Based Interface Internet Relay Chat Client (cbif_IRCC)*, delivered with V1.0.0.0/2.8.21 for HP-UX 10.x.
- C *Segment Version Description Document - Character-Based Interface Internet Relay Chat Client (cbif_IRCC)*, delivered with V1.0.0.0/2.8.21 for HP-UX 10.x.
- C *Segment Software User's Manual - Character-Based Interface Internet Relay Chat Client (cbif_IRCC)*, delivered with V1.0.0.0/2.8.21 for HP-UX 10.x.

3. Operating Guidelines

Refer to the *Software User's Manual* for detailed operating instructions.

4. Installation Overview

The software is installed using the Segment Installer tool running as *sysadmin*.

5. System Administration Utilities

None.

6. Operation/Maintenance Procedures

If the location of the IRC server software changes, the */h/cbif_IRCC/lib/server* file must be edited to refer to the fully qualified domain name of the IRC server machine.

7. Error Recovery Guidelines

None.

8. Notes

None.

A. Appendices

None.
